Equitile Investments Feeder ACS Overview

Equitile Investments ACS (the "Scheme") is an Authorised Contractual Scheme which is constituted as an umbrella Co-Ownership Scheme as defined under section 235A(2) of FSMA and the Collective Investment in Transferable Securities (Contractual Scheme) Regulations 2013 (SI 2013/1388) and the FCA Handbook (including the COLL Sourcebook) made under FSMA, and any other applicable rules made under FSMA from time to time in force. Equitile Investments Ltd (a Private Limited Company (the "Company")) is the appointed ACS Manager (the "Manager") and HSBC Bank Plc, is the appointed Depositary (the "Depositary") to whom the Scheme Property is entrusted for safekeeping.

The Scheme has segregated liability between sub-funds of the Scheme ("Funds"). The Scheme was authorised by the FCA on 16 December 2015. The Scheme is organised as an umbrella Co-Ownership Scheme and may be comprised of separate sub-funds and segregated portfolio of assets. Accordingly, the sub-funds assets are allocated exclusively to that sub-fund and shall not be used or made available to discharge (directly or indirectly) the liabilities of, or claims against, any other person or body, including any other sub-funds that may be established under the Scheme on a later date and shall not be available for any other purpose.

Except where otherwise stated or the context requires, capitalised terms have the meaning given to them in the Prospectus of the Scheme dated 13 January 2023.

Investment objective and policy

Equitile Resilience Fund

The Scheme currently has one sub-fund, Equitile Resilience Fund (the "Sub-Fund"), a UK UCITS Scheme under the COLL Sourcebook. The Sub-Fund was authorised by the FCA on 16 December 2015.

The Sub-Fund aims to generate capital growth by investing in today's most innovative, high growth companies. The investment process combines a quantitative and qualitative approach to build a diversified portfolio of between 35 to 40 high quality, large cap developed world companies. The investment process is designed to select the best stocks for the prevailing economic environment. It is explicitly engineered to adapt to changing economic circumstances, seeking to identify leading companies in rapidly growing industries.

The Sub-Fund is actively managed with the fund manager utilising their expertise to select investments to achieve the fund's objective. The Sub-Fund does no geographic or sector constraints and is benchmark agnostic. The Sub-Fund is typically close to fully invested in equities and does not rely on leverage or derivatives to generate returns.

Investors may assess the success of this strategy by considering, in combination, the average annual return of the Sub-Fund and the average annual maximum loss of the Sub-Fund where the annual maximum loss is defined as the largest percentage loss which an investor could have incurred by investing into and subsequently redeeming from the Sub-Fund within a given year.

In normal market conditions, the Sub-Fund will be close to fully invested in equity securities (e.g. shares). Allocations to bonds and cash may be made periodically for the purpose of capital preservation. Use may be made of cash holdings, hedging and other investment techniques for the purposes of efficient portfolio management as permitted by the COLL Sourcebook. The Sub-Fund will not utilise borrowing or leverage in order to achieve the investment objective. Short term borrowing may be used for the purposes of efficient portfolio management. The Sub-Fund may utilise derivatives for efficient portfolio construction and for hedging purposes.

Statement of Authorised Corporate Director's Responsibilities

The Financial Conduct Authority Collective Investment Schemes Sourcebook (COLL) requires the Manager to prepare financial statements for each accounting year which give a true and fair view of the financial affairs of the Scheme and of its net revenue and net capital gains/losses on the property for the year.

In preparing those financial statements, the Manager is required to:

- select suitable accounting policies and then apply them consistently.
- comply with the disclosure requirements of the Statement of Recommended Practice relating to Financial Statements of UK Authorised Funds issued by the Investment Management Association (now known as the Investment Association) in May 2014 (the "SORP"), amended in June 2017.
- comply with the Prospectus, generally accepted accounting principles and applicable accounting standards subject to any material departures which are required to be disclosed and explained in the financial statements.
- keep proper accounting records which enable it to demonstrate that the financial statements as prepared comply with the above requirements.
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Scheme will continue in operation for the foreseeable future.

The Manager is responsible for the management of the Scheme in accordance with the Regulations, the Co-ownership Deed and the Prospectus.

The Manager is also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

ACS Report to Shareholders

As the sole Manager, Equitile Investments Ltd, presents its report and the audited financial statements of the Scheme for the year from 01 January 2023 to 31 December 2023. The Scheme is a UK UCITS Scheme which complies with the Financial Conduct Authority's Collective Investment Schemes sourcebook. The unitholders are not liable for the debts of the Scheme. The Investment Objectives and Policies of each subfund of the Scheme are covered in the section for each sub-fund. The names and addresses of the Manager, the Depositary and the Auditors are detailed on page 2.

The object of the Scheme (which may be made up of a number of sub-funds) is to invest the Scheme Property through the sub-funds as set out in the Prospectus and the object of each sub-fund is for the ACS Manager on behalf of the Unitholders, as co-owners of the relevant sub-fund's property, to invest that property in transferable securities, money market instruments, derivatives and forward transactions, deposits, cash, near cash, and units in collective investment schemes in accordance with the Regulations applicable to the Scheme and each sub-fund with the aim of spreading investment risk and giving to the Unitholders the benefits of the results of the management of that property.

ACS Manager's Statement

In accordance with the requirements of the COLL as issued and amended by the Financial Conduct Authority, the report and financial statements are approved on behalf of the Directors of Equitile Investments Ltd, the ACS Manager.

Statement and Report of the Depositary

Nigel Hellewell Compliance Department Equitile Investments Limited 1 King William Street London EC4N 7BJ

15 January 2024

Dear Nigel,

ACS Name: Equitile Investments ACS Accounting Period Ended: 31 December 2023

Please include the following in your Report and Accounts:

Statement of the Depositary's Responsibilities in Respect of the Scheme and Report of the Depositary to the Unitholders of the Equitile Investments ACS ("the Scheme") for the Period Ended 31 December 2023

The Depositary must ensure that the Scheme is managed in accordance with the Financial Conduct Authority's Collective Investment Schemes Sourcebook, the Financial Services and Markets Act 2000, as amended, the Collective Investment in Transferable Securities (Contractual Scheme) Regulations 2013 (together "the Regulations") and the Contractual Scheme Deed and Prospectus (together the "Scheme documents") as detailed below.

The Depositary must in the context of its role act honestly, fairly, professionally, independently and in the interests of the Scheme and its investors.

The Depositary is responsible for the safekeeping of all custodial assets and maintaining a record of all other assets of the Scheme in accordance with the Regulations.

The Depositary must ensure that:

 the Scheme's cash flows are properly monitored and that cash of the Scheme is booked in cash accounts in accordance with the Regulations;

Registered in England number 14259. Registered office: 8 Canada Square, London, E14 5HQ. Authorised by the Prudential Regulation Authority and regulated by the Financial Conduct Authority and the Prudential Regulation Authority

RESTRICTED Page 1 of 2

1-2 Lochside Way Edinburgh Park Edinburgh EH12 9DT

F. 0345 587 0435

www.hsbc.co.uk

- the sale, issue, repurchase, redemption and cancellation of units are carried out in accordance with the Regulations;
- the value of units of the Scheme are calculated in accordance with the Regulations;
- any consideration relating to transactions in the Scheme's assets is remitted to the Scheme within the usual time limits;
- · the Scheme's income is applied in accordance with the Regulations; and
- the instructions of the Authorised Fund Manager ("the AFM"), which is the UCITS Management Company, are carried out (unless they conflict with the Regulations).

The Depositary also has a duty to take reasonable care to ensure that the Scheme is managed in accordance with the Regulations and the Scheme documents in relation to the investment and borrowing powers applicable to the Scheme.

Having carried out such procedures as we considered necessary to discharge our responsibilities as Depositary of the Scheme, it is our opinion, based on the information available to us and the explanations provided, that, in all material respects, the AFM:

- (i) has carried out the issue, sale, redemption and cancellation, and calculation of the price of the Scheme's units and the application of the Scheme's income in accordance with the Regulations and Scheme documents of the Scheme; and
- (ii) has observed the investment and borrowing powers and restrictions applicable to the scheme in accordance with the Regulations and Scheme documents of the Scheme.

HSBC Bank plc

This report is given on the basis that no breaches are subsequently advised to us before the distribution date. We therefore reserve the right to amend the report in the light of such circumstances.

Yours sincerely

Claire Sewell

Independent auditors' report to the Unitholders of Equitile Investments ACS

Opinion

In our opinion, the financial statements of Equitile Investment ACS (the "Scheme"):

- give a true and fair view of the financial position of the Scheme and its sub-fund as at 31 December 2023 and of the net revenue and the net capital gains on the scheme property of the Scheme and its sub-fund for the year then ended; and
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law), the Statement of Recommended Practice for UK Authorised Funds, the Collective Investment Schemes sourcebook and the ACS Deed.

Equitile Investment ACS is an Authorised Contractual Scheme with a single sub-fund. The financial statements of the Scheme comprise the financial statements of its sub-fund. We have audited the financial statements, included within the Annual Report and Audited Financial Statements (the "Annual Report"), which comprise: the balance sheet as at 31 December 2023; the statement of total return and the statement of change in net assets attributable to unitholders for the year then ended; the distribution tables; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We remained independent of the Scheme in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the Authorised Contractual Scheme Manager's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the Authorised Contractual Scheme Manager's with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The Authorised Contractual Scheme Manager is responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on our work undertaken in the course of the audit, the Collective Investment Schemes sourcebook requires us also to report certain opinions as described below.

Authorised Contractual Scheme Manager's Report

In our opinion, the information given in the Authorised Contractual Scheme Manager's for the financial year for which the financial statements are prepared is consistent with the financial statements.

Responsibilities for the financial statements and the audit

As explained more fully in the Statement of the Manager's responsibilities, the Authorised Contractual Scheme Manager is responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The Authorised Contractual Scheme Manager is also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Authorised Contractual Scheme Manager is responsible for assessing the Scheme's and its sub-fund's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the Au-thorised Contractual Scheme Manager either intends to wind up or terminate the Scheme or its sub-fund, or has no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company and its industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of the Collective Investment Schemes sourcebook, and we considered the extent to which non-compliance might have a material effect on the financial statements, in particular those parts of the sourcebook which may directly impact on the determination of amounts and disclosures in the financial statements. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to increase revenue or to increase the net asset value of the Company Audit procedures performed included:

- Discussions with the Authorised Contractual Scheme Manager, including consideration of known or suspected instances of non-compliance with laws and regulation and fraud;
- Reviewing relevant meeting minutes, including those of the Authorised Contractual Scheme Manager's board of directors;
- Identifying and testing journal entries, specifically any journals posted as part of the financial year end close process; and
- Designing audit procedures to incorporate unpredictability around the nature, timing or extent of our testing.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditors responsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's shareholders as a body in accordance with paragraph 4.5.12 of the Collective Investment Schemes sourcebook as required by paragraph 67(2) of the Open-Ended Investment Companies Regulations 2001 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Opinions on other matters prescribed by the Collective Investment Schemes Sourcebook In our opinion, we have obtained all the information and explanations we consider necessary for the purposes of the audit.

Under the Collective Investment Schemes sourcebook we are also required to report to you if, in our opinion:

- proper accounting records have not been kept; or
- the financial statements are not in agreement with the accounting records.

We have no exceptions to report arising from this responsibility.

Sub-Fund Review

As at 31 December 2023, the Scheme had 1 active sub-fund:

Fund – Equitile Resilience Fund Launch Date – 29 February 2016 Base currency - GBP

Investment Review

Please note this investment review is for the period from 01 January 2023 to 31 December 2023.

Performance and Market Review

Inflationary pressures eased through the first half of 2023 in most geographic regions allowing most central banks to pause their monetary tightening processes. Financial markets interpreted those pauses to imply a quick reversal of the tightening polices and moved to discount significant interest rate cuts through 2024. This anticipation of monetary easing was sufficient, together with a surge in enthusiasm for Artificial Intelligence technology, to trigger a sharp rally in US technology and large cap stocks through the second half of 2023.

Through the second half of 2023 the disinflationary process stalled, leaving the all-important US inflation rate close to 3%, still markedly above the Federal Reserve's 2% target. This, we felt, called into question the likelihood of a significant imminent monetary easing cycle. In addition, with the exception of a very few stocks, the earnings growth anticipated by the technology rally in the second half of the year has remained tepid. As a consequence, the rally in technology stocks through 2023 as a whole lead to valuation multiples rising to levels, we considered unjustifiable and likely unsustainable. Indeed, we feel in some important cases the valuation of US technology stocks should be considered to be in a speculative bubble. Our concerns in this regard are further exacerbated by a series of government subsidies, most notably related to the US Inflation Reduction Act, which are encouraging the construction of additional manufacturing capacity in the semiconductor industry. This industry is by nature inherently cyclical and the artificial encouragement of additional capacity expansion risks triggering an unusually large boom-bust cycle.

By contrast, as consequence of the high degree of attention and capital flows being focussed on the Technology sectors a number of other areas of the market have become neglected by investors and fallen to valuation multiples which we consider to be compellingly cheap. In our opinion, energy companies and to a lesser extent mining companies fall into this category while at the same time, having revenues tied to the price of physical commodities, can offer an attractive investor returns in periods of persistently high inflation.

For the reasons above, through 2023, the fund's investment portfolio has been progressively positioned to hold a greater weight in particularly the energy sector and lesser weight in technology sectors.

As a consequence of having chosen to largely avoid the US technology sectors, returns during the year have been somewhat disappointing in comparison with those achieved by especially the US NASDAQ. The fund's USD share class gained approximately 7.7% during the year, period while the GBP share class declined by 2.2%, the divergence being largely due to movements in foreign exchange rates through the year.

Synthetic Risk and Reward Indicator (SRRI)

Lower risk Higher risk

1 2 3 4 5 6 7

Typically lower returns

Typically higher returns

The Sub-Fund is classified category 6 because the investment policy of the fund means it will typically be predominantly invested in the equity markets and will therefore be exposed to the relatively high volatility of the equity market. Please note that even the lowest ranking does not mean risk-free.

The Risk and Reward indicator demonstrates where the Sub-Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Sub-Fund.

Securities Financing Transaction Regulation Disclosure

The Sub-Fund does not engage in any securities financing transactions and / or any total return swaps.

Comparable tables

The 'Return after operating charges' disclosed in the Comparative Tables is calculated as a return after operating charges per unit divided by the opening net asset value per unit. It differs from the Sub-Fund's performance disclosed in the ACD's report which is calculated based on the latest published price.

Portfolio transaction costs are incurred when investments are bought or sold by the Sub-Fund in order to achieve the investment objective. Direct transaction costs include broker commission and taxes. Broker commission includes the fee to a broker to execute the trades. Equitile does not buy external research.

10. Contingent assets, liabilities and outstanding commitments

There were no contingent assets, liabilities or commitments at the year end (2022 - £Nil).

11. Related parties

The Fund's Manager, Equitile Investments Ltd is a related party to the Sub-Fund as defined by Financial Reporting Standard 102.33 'Related Party Disclosures'.

Management fees paid to Equitile Investments Ltd are shown in note 3 and details of units issued and cancelled by the Manager are shown in the statement of change in net assets attributable to unitholders. The balance due to the Manager at the year end in respect of Management fees was £54,446 (2022 - £68,657). Any balance due from the Manager in respect of issues is shown in note 6. Any balance due to the Manager in respect of cancellations is shown in note 8.

The Equitile Resilience Feeder Fund as a feeder vehicle for the Fund holds units comprising 100.0% (2023 - 88.9%) of the total net assets of the Sub-Fund.

12. Financial instruments

The policies applied in the management of risk disclosures are set out on pages 31 to 34.

Fair value of financial assets and financial liabilities

The fair values of the Sub-Fund's assets and liabilities are represented by the values shown in the balance sheet on page 21. There were no instances of invoking the Fair Value Pricing for the year (2022: nil).

Currency exposures

A significant proportion of the Sub-Fund's assets are denominated in currencies other than Sterling, with the effect that the balance sheet and total return can be affected by currency movements. For further details, refer to 'Currency Risk' section titled 'Risk Management Frameworks' (starting on Page 32).

Net currency asset exposure as at 31.12.23

· · · · · · · · · · · · · · · · · ·			
Currency	Net other assets	Investments	Total
	£'000	£'000	£'000
	31.12.23	31.12.23	31.12.23

The Sub-Fund is tax transparent for income purposes meaning that UK tax-paying shareholders are subject to tax on their share of income, net of allowable expenses, as it arises to the Sub-Fund and not on distributions of income after deduction of expenses.

When a unit is purchased during the distribution year, part of the purchase price of the unit reflects the relevant unit of income and expenses accrued by the Sub-Fund, and this will be disclosed on the contract note. This purchased income and expense, a capital sum, should be deducted from the aggregate accrued income or expense as applicable.

The subscription price disclosed on the contract note reflects the acquisition cost, which should be adjusted by the capital sum referred to above.

It is the responsibility of the unitholder to maintain a record of the relevant amount(s) of income equalisation and to make the appropriate adjustment when completing their tax calculations.

Summary of Significant Accounting Policies

Basis of Preparation

The Financial Statements have been prepared on a going concern basis, under the historical cost convention as modified by the revaluation of certain financial assets and liabilities measured at fair value through profit or loss. The Fund has adopted FRS 102 and the 2014 SORP.

Base Currency

The base currency of the Sub-Fund is Sterling.

Tax Transparency

Revenue, expenses and taxation of the Master Fund, proportionate to the Sub-Fund's investment are recognised and reflected within the Notes to the Financial statements above on account of the Master Fund being a tax transparent fund.

Revenue Recognition

Revenue from collective investment Schemes, quoted equity and non-equity shares is recognised net of attributable tax credits when the security is quoted ex-dividend. Overseas revenue received after the deduction of withholding tax is shown gross of taxation, with the taxation consequences shown within the taxation charge.

Revenue is accrued in line with the Master Fund. Equalisation received from distributions or accumulations on units or shares in collective investment schemes is treated as capital and deducted from the cost of investments.

Bank interest and other revenue are recognised on an accruals basis.

Stock Dividends

The ordinary element of stocks received in lieu of cash dividends is recognised as revenue of the Sub-Fund but does not form part of the distribution. Any enhancement above the cash dividend is treated as capital.

Special Dividends

Special dividends are recognised as either revenue or capital depending upon the nature and circumstances of the dividend.

Expenses

For accounting purposes, all expenses (other than those relating to the purchase and sale of investments) are charged against revenue for the year on an accruals basis.

Distributions

Amounts distributable are calculated after excluding expenses borne by capital as agreed by the Manager and Depositary. Scrip dividends will not be distributed.

Valuations

All investments are valued at their fair value at 3 pm on 30 December 2023, being the last business day of the financial year. The fair value of shares is bid-price. The fair value of all single priced collective investment Schemes is their single price. The details of determination of net asset value for the Sub-Fund, including for equities, can be found in the Prospectus of the Sub-Fund at www.equitile.com.

Foreign Currencies

Assets and liabilities in currencies other than sterling are translated into sterling at the exchange rates prevailing at 3 pm on the last working day of the accounting year. Transactions in foreign currencies are translated at the exchange rate prevailing at the transaction date. Where forward positions in currencies are held, these are translated at the appropriate forward rate.

Taxation

Provision is made for taxation at current rates on the excess investment revenue over allowable expenses, with relief for overseas taxation taken where appropriate. Deferred tax assets are recognised only to the extent that they are more likely than not that there will be taxable profits from which the future reversal of the underlying timing differences can be deducted.

Withholding tax on overseas dividends is accounted for when the security is quoted ex dividend.

Dilution Adjustment

In certain circumstances the ACD may carry out a dilution adjustment. In accordance with the Financial Conduct Authority Regulations, on all subscriptions and redemptions of shares, which is pain into the Sub-Fund and included in the Statement of Change on Net Assets Attributable to Shareholders. The adjustment is intended to cover certain dealing charges not included in the mid-market value of the Sub-Fund used in calculation the share price, which could have a dilution effect on the performance of the Sub-Fund.

Efficient Portfolio Management

Where appropriate, certain permitted transactions such as derivatives or forward foreign currency transactions may be used for efficient portfolio management. Where such transactions are used to protect revenue, and the circumstances support this, the revenue and expenses derived there from are included in 'Revenue' or 'Expenses' in the Statement of Total Return. Where such transactions are used to protect capital, and the circumstances support this, the gains and losses derived therefrom are included in 'Net capital (losses) / gains' in the Statement of Total Return. Any positions on such transactions open at the year-end are reflected in the sub-fund's Portfolio of Investments at their fair value.

Internal Control and Risk Management Frameworks

The Company is responsible for establishing and maintaining adequate internal control and risk management systems in relation to the financial reporting process. The Company has procedures in place to ensure all relevant accounting records of the Scheme are properly maintained and are readily available, including production of annual and semi-annual financial statements. The Company has appointed HSBC Bank Plc (the "Administrator") as the Scheme's administrator consistent with the regulatory framework applicable to the Scheme. The Administrator has functional responsibility for the preparation of the Scheme's annual and semi-annual Financial Statements and the maintenance of its accounting records. On appointing the Administrator, the Board of Directors (the "Board") of the Company noted that it is regulated by the UK Financial Conduct Authority (FCA) and, in the Board's opinion, has significant experience as an Administrator. The Board also noted the independence of the Administrator from the Company. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss. The annual and semi-annual financial statements of the Scheme are required to be approved by the Board and filed with the FCA within the relevant respective time periods. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board evaluates and discusses significant accounting and reporting issues as the need arises. The Board reviews the financial statements prior to their approval though it should be noted that such review does not include verification of information in the financial statements to underlying documents. The annual financial statements are subject to independent audit by PricewaterhouseCoopers LLP (the "Auditors") and the Board receives and considers a report from the Auditors as to the audit process.

This report includes observations as to the extent to which (i) the annual financial statements provide a true and fair view (ii) adjustments were made to the accounting records maintained by the Administrator in order to provide financial statements giving a true and fair view and (iii) potential significant control weaknesses identified by the Auditors during the audit process. The report has been presented at the board meeting where the financial statements are presented to the Board for approval.

Composition of the board of Directors

Unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. Currently, the Board is composed of five Directors. The business of the Company is managed by the Directors. A Director may at any time summon a meeting of the Directors. Questions arising at any meeting of the Directors are determined by a majority of votes. The quorum necessary for the transaction of business at a meeting of the Directors is three.

The Directors who held office at the date of these financial statements are: George Cooper, Andrew McNally, Nigel Hellewell, Thor Johan Furuholmen and Xiyang (Daniel) He.

Non-executive Directors are Gerald Ashley, Carsten Wilhelmsen and Jakob Igbal

Directors' interests and transactions

The Directors of the ACD are also shareholders and directors of the parent company of Equitile Investments Ltd i.e., Equitile Ltd. There are no external contracts or arrangements of any significance in relation to the

business of the Company in which the Directors had any interest any time during the financial year. No Director has any interest, direct or indirect, in any assets which have been or are proposed to be acquired or disposed of by, or issued to, the Company and no Director is materially interested in any contract or arrangement subsisting at the date hereof which is unusual in its nature and conditions or significant in relation to the business of the Company. More information on Directors is available at https://www.equitile.com/about/who-we-are

<u>Transactions with connected persons</u>

Any transaction carried out with a UK UCITS by a management company or depositary to the UK UCITS, the delegates or sub-delegates of the management company or depositary, and any associated or group of such a management company, depositary, delegate or sub-delegate ("connected persons") must be carried out as if negotiated at arm's length. Transactions must be in the best interests of the Unitholders. The Directors are satisfied that there are arrangements are firmly in place.

Significant events during the financial year

There were no significant events during the year.

Statement of Compliance

The financial statements have been prepared in compliance with UK Financial Reporting Standard 102 (FRS 102) and in accordance with the Statement of Recommended Practice for UK Authorised Funds issued by the Investment Management Association in May 2014 and amended in June 2017 (2014 SORP).

Risk Management Frameworks

The Manager has a documented risk management framework which details the processes and procedures used to identify, measure, manage and monitor appropriately all risks to which the funds are or may be exposed. The risks covered by the framework include market risk, liquidity risk, currency risk, credit/counterparty risk, operational risk and any other risks that might be material to the funds. The risks are both investment and operational and refer to the risk of loss arising from inadequate or failed processes, people or systems including attempted fraud. The risk framework details:

- the techniques, tools and arrangements including systems and processes used;
- the content and frequency of reports; and
- the allocation of responsibilities between key staff and departments.

The main risk management processes used by the Manager are fully integrated with the daily management of the Sub-Fund's portfolio and is used to measure and monitor market risk, credit / counterparty risk and liquidity risk. A separate process is maintained to track instances of operational risk and monitor amendments to controls made, seeking to ensure that any operational errors do not re-occur. The Manager has a formal structure of which includes an Operating Committee and a Risk management Committee who review the risk profile, including market, credit, operational and liquidity risks, of the Sub-Fund and publish and circulate this information internally on a regular basis. As part of its governance processes, the Manager reviews the performance of the risk management framework and its associated arrangements, processes, systems and techniques on at least an annual basis or after a risk event. The risk management framework is updated by the Manager following any significant change in the business or in

risk exposures and at least annually. It is also reviewed by the Depositary.

Market Risk

Market risk is the risk of loss arising from fluctuations in the market value of investments held by the funds attributable to changes in market variables, such as equity prices, foreign exchange rates, interest rates or the credit worthiness of an issuer. The risk management framework monitors the levels of market risk to which the funds are exposed in relation to the fund investment objective and policy.

Leverage

The Sub-Fund does not use leverage as part of its investment strategy. The Sub-Fund uses the commitment method to calculate global exposure in preference to the VaR method.

Liquidity Risk

Liquidity risk exists when the sale of assets or exit of trading positions is impaired by such factors as decreased trading volume, increased price volatility, industry and government regulations, and overall position size and complexity. It may be impossible or costly for the Sub-Fund to liquidate positions rapidly particularly if there are other market participants seeking to dispose of similar assets at the same time or the relevant market is otherwise moving against a position or in the event of trading halts or daily price movement limits on the market or otherwise. Derivative transactions that are particularly large and bonds traded in the secondary market may be less liquid and it may be difficult to achieve fair value on transactions. Closing positions held in the secondary markets prematurely, for instance, to meet client redemption requests, can result in increased transaction costs which will be reflected in the investment returns.

Liquidity risk is the possibility that the fund will not be able to sell its assets without incurring losses within the timeframe required to meet investor redemptions. The asset liquidity profile of the fund is monitored on a regular basis and compared to both historical investor redemption patterns and potential redemption scenarios, with the aim of ensuring that the fund will be able to meet any actual redemptions in a timely manner. The liquidity risk management process includes an assessment of the market turnover, percentage of an issue held by the fund, credit rating of the issuer and/or the buy-sell spread of the market in the securities held where the information is available and is applicable.

Liquidity profile stress tests under both normal and exceptional conditions are conducted on a regular basis. If market liquidity is perceived to be decreasing, the ACD might seek to take any of the following actions to improve the liquidity profile of a fund: maintain higher cash balances; maintain a greater proportion of assets in securities which are traditionally more liquid; diversify the range of issue.

Credit Risk

Credit risk comprises both credit issuer risk and counterparty risk. Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation. The Fund will be exposed to a credit risk for the parties with whom it trades. Under normal market conditions the Master Fund remains close to fully invested in equity securities. However, allocations to bonds may be made periodically for the purpose of capital preservation. Investing in sovereign debt, any other debt guaranteed by a sovereign government, or corporate debt entails risks related to the issuer's ability and willingness to repay the principal and pay

interest.

Credit risk may also arise through a default by one or several large institutions that are dependent on one another to meet their liquidity or operational needs, so that a default by one institution causes a series of defaults by the other institutions. This is sometimes referred to as a "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms and exchanges, with which the Master Scheme interacts on a daily basis.

Currency Risk

The investments of the Sub-Fund may be acquired in currencies which are different from its base currency and therefore the performance may be impacted by movements in exchange rate between the base currency and investment currency.

Counterparty Risk

Counterparty risk arises primarily with the financial brokers through whom the funds buy and sell securities. The sub-funds may only transact with brokers from an approved broker list maintained by the ACD. All brokers on the ACD approved list are subject to regular credit and general business checks. The sub-funds may also be exposed to counterparty risks arising from the use of forward currency instruments, usually transacted to decrease exposure to foreign currency. These risks are monitored daily.

Asset Hedging

The investments of the Sub-Fund may be acquired in currencies which are different from its base currency and therefore the performance may be impacted by movements in exchange rate between the base currency and investment currency. The assets of the Sub-Fund not denominated in its base currency are hedged using Short Dated FX Forwards (OTC Derivatives) to manage currency risks. The risk arising from investing in non-base currency assets is substantially mitigated through the use of FX Forwards.

Hedging techniques employed by the Sub-Fund could involve a variety of derivative transactions. As a result, hedging techniques involve different risks than those of underlying investments, including liquidity risk and the potential for loss in excess of the amount invested. In particular, the variable degree of correlation between price movements of hedging instruments and price movements in the position (including asset positions) being hedged creates the possibility that losses on the hedge may be greater than gains in the value of the Sub-Fund's positions.

In addition, although the contemplated use of these techniques should minimise the risk of loss due to a decline in the value of the hedged position, at the same time they may limit any potential gains resulting from an increase in the value of such positions.

There can be no assurance that hedging transactions will be successful in protecting against adverse market and/or currency movements.

Assessment of Value

<u>FCA Assessment of Value</u>, provisions are set out in COLL 6.6.19 to 6.6.27 and includes Rules as well as Guidance. The FCA require authorised fund managers (AFMs) to carry out as assessment on value for money of each fund as per the following criterions -

- Quality of service
- Performance
- AFM costs
- Economies of scale
- Comparable market rates
- Comparable services
- Classes of units

The detailed assessment of value document for the Fund are available at www.equitile.com

Remuneration Disclosures

The provisions of the Undertaking in Collective Investments Schemes Directive ("UCITs V") took effect on 18 March 2016. UK UCITS Managers are required to establish and maintain remuneration policies for its staff which are consistent with and promote sound and effective risk management in line with the UCITS remuneration principles. The Board of Directors has established a remuneration policy to ensure the UCITs Remuneration Code in the UK FCA handbook is met proportionately for all UCITs Remuneration Code Staff. The policy sets out a framework for determining the level of fixed and variable remuneration of staff, including maintaining an appropriate balance between the two.

Arrangements for variable remuneration, where applicable, are calculated primarily by reference to the performance of each individual and the profitability of the relevant business unit. The policy is designed to reward long term performance and long term profitability.

All staff are employed by Equitile Investments Ltd with none employed directly by the Scheme. No performance fee was charged to the Fund for the year ending 31.12.2023 (2021: same)

Under the UCITs V Directive, the Manager is required to disclose information relating to the remuneration paid to its staff, split into fixed and variable remuneration. The total remuneration of those individuals who are fully or partly involved in the activities of the Scheme for the ACD's financial year ending 29.02.24., is analysed in the table below:

	Number of Staff	Total remuneration
Fixed remuneration	7	976,834
Variable remuneration	0	0
Performance Fees	0	0
Code staff, of which		
Senior Management	7	976,834
Other Code staff	0	0

The staff members included in the above analysis support all the sub-funds managed by the Manager. It is not considered feasible or useful to attempt to apportion these figures to individual sub-funds and are based on assets under management. The Board has reviewed the general principles of the Remuneration Policy and its application in the last year which has resulted in no material changes to the Policy. The details of the Company's Remuneration Policy can be found at www.equitile.com.*
